BLUE JACKET LEASE

STRIKES GOOD DIRT
Paddy Farrell, who is interested in the Gibson, McVeigh and Farrell lease on the Blue Jacket at Round Mountain, was summoned to the hydraulic camp yesterday morning by the report that his partners had found dirt that averaged from \$5 to \$20 a yard on their block of ground. There is an abundance of water for sluicing the dirt and it is expected that a few shipments of the yellow metal will soon be ready for shipment to the mint.

Temperature Report

Yesterday's hourly temperature record at the weather bureau office was as follows:

5 a. m.	60
6 a. m.	60
7 a. m.	65
8 a. m.	66
9 a. m.	70
10 a. m.	73
11 a. m.	76
12 (noon)	79
1 p. m.	79
2 p. m.	80
3 p. m.	79
4 p. m.	79
5 p. m.	78
Highest a year ago, 52; lowest, 31.	

HOTEL ARRIVALS

MIZPAH HOTEL.

Thomas, city; W. L. Lowson, Geo. Wachetmer, Thomas J. Mack, Dixie Kihmball, Irish Finn, Sacramento; H. V. Maxson, Goldfield.

WILD WEST LEASE IS MAKING GOOD

Bob Munger and Frank Daly, who a few weeks ago secured a lease on the north half of block 7 on the Wild West claim from the Rawhide Coalition can not be accused of letting grass grow under their feet in the interim. They now have forty-two sacks of high grade ore and expect to have a small shipment ready by the end of the week to ship to the Western Ore Purchasing company at Hazen.

A series of samples taken from the ore show that they will have a handsome profit for their labors.—Rawhide Press-Times.

A. B. WITCHER MADE PERMANENT EXAMINER

A. B. Witcher has at last stated that he would accept the position of state bank examiner and instead of his appointment being only a temporary one it has been made permanent. This action was taken at the last

meeting of the board of bank commissioners at the instigation of Bank Commissioner Belford, who, it is rumored, made the statement that the board could not afford to take chances on a position of the importance of bank commissioner and if Mr. Witcher did not want the position it would be best for him to step out and let some one else be appointed. The matter being put up so squarely to Mr. Witcher, he stated that he would accept the appointment and the matter was settled.

MINNICK REPLIES TO SLICK MERRILL

The following letter was received at this office yesterday:
Editor Bonanza: In reply to the challenge of Slick Merrill, who stated that he desired a match with me, I desire to state that I abandoned the ring several years ago and have no desire again to take up that profession. I am now in business for myself, a fact that is well known to the party who is supposed to be backing Merrill, which requires my attention. However, should I again enter the ring, I would continue, as in the past, and that is to fight with white people only. I have not posed as a prize fighter while in this city and my leaving the ring shows what I think of the profession.
JACK MINNICK.

RAILROAD TO ELY WITHIN NEXT YEAR POSSIBLE

APPLICATION FOR FRANCHISE THROUGH ELY TO BE MADE WITHIN FEW WEEKS.

Whether or not the city of Ely grants a franchise, the Expositor can state with considerable certainty that the proposed railroad between Goldfield and a connection somewhere along the route of the

Nevada Northern will be in operation within the next twelve months.

After much delay and months of hard work C. A. Zabriskie, arrived in New York from Europe this week and it is announced that he returns home with ample funds to insure the building of the new line that means so much for White Pine county.

It is understood that the amount required was \$5,000,000 and that every cent of this money is now awaiting those who have backed this project.

Hope has not been altogether abandoned for having the connecting link of the new line to Los Angeles and the coast strike Ely. It is believed that those who are interested will shortly go before the city council and renew their application for a franchise through Ely, prepared to comply with almost any requirement the council may place, on the permit, so long as it is within reason.

A new union depot, prompt train service, careful attention to the grades and other requirements will be agreed to.

It is understood on good authority that the new line will be in no manner connected with the Nevada Northern and that the ultimate object is to connect with the Western Pacific at a point near Shafter. On the southwest connection will be made with the Tonopah and Tidewater or Borax Smith road, thus insuring a direct line to the coast and a competing railroad clear across the continent, as well as a competing line for the people of Ely.

It is believed that what insures the success of the enterprise is co-operation with the Western Pacific, anxious to get a line into the California oil fields and securing a permanent source of fuel supply. The line will be built; this is assured. The only question now to be determined is whether it will pass through Ely and East Ely. If the route through this city is not secured, the line, it is understood, will pass through Hercules Gap, into Cherry creek and on to its connection with the Western Pacific.

TONOPAH MAN PASSES AWAY IN ELY HOTEL

DIES SOON AFTER HE IS REUNITED WITH HIS SISTER.

After a visit of only three days with his sister, whom he had not seen for fifteen years, John Lawler, a miner, died this afternoon at the Hayes Park hotel of miners' consumption, complicated with pneumonia.

Mrs. J. Russell, his only living relative, was present at his bedside, when he passed away. He was aged 40 years.

Learning accidentally of his sister's whereabouts, Lawler arrived from Tonopah Tuesday night. Realizing that the end was near, he came to Ely to spend his declining days with his sister.

Lawler was a native of New Jersey, but migrated to the west when only a boy. He made several fortunes following the early silver camps, but died comparatively poor.—Ely Expositor.

BRYAN WILL BE SHIPPING SOON

J. R. Bryan, manager of the Sunrise Pioneer Leasing company, is fast getting things in shape to do a big business with the two leased blocks on the K. K., for the company and the old Richard-Garberg lease on his own account.

Both contain ore and both can be best worked through the Rickard lease.

Sacking of high grade has been progressing until nearly a carload is ready for shipment which will go out early next week. This will inaugurate the second shipper from Pioneer that Rube Bryan has nosed out and made effective.—Rhyolite Herald.
